Red Light Therapy Mask

by Clearlight®

FOUR TARGETED WAVELENGTHS | THREE LIGHT THERAPY MODES

Red + Near-Infrared 630nm + 850nm
Supports firmness, elasticity, fine lines, wrinkles and overall skin tone.

Blue | 415nm
Supports clearer-looking skin and helps improve the appearance of blemishes and pores.

Yellow | 590nm
Helps calm visible redness and supports a brighter, more even-looking complexion.

ADVANCED LIGHT. RADIANT SKIN.

Bring Clearlight light therapy directly to your skincare routine. The Clearlight® Red Light Therapy LED Face Mask combines four targeted wavelengths, red, near-infrared, blue and yellow, to support collagen production, promote smoother-looking skin, improve the appearance of blemishes and restore a healthy, radiant glow. Made from soft, skin-friendly medical-grade silicone, the rechargeable, hands-free design makes advanced light therapy easy to incorporate into your routine in just 10 minutes.

Features

Exclusive Comfort & Performance Design
Open, vented design promotes airflow and lightweight comfort. Built-in eye shields hold the mask about 15 mm from the skin rather than resting directly against the face, providing extra breathing room and more balanced light coverage.

216 Light-Emitting Diodes
54 quad-core LEDs deliver four complementary wavelengths across the treatment area.

Designed For Effortless Portable Treatments
Soft, skin-friendly medical-grade silicone, an adjustable fit and built-in eye shields provide comfortable, hands-free wear. The lightweight, rechargeable design makes it easy to enjoy your treatment at home or on the go.

Tested With Wellness In Mind
EMF tested with negligible measured EMF levels (≤0.1 mG) Made in our certified medical device manufacturing facility

Health Benefits

Supports Collagen Production
Helps soften the appearance of fine lines and wrinkles while supporting firmer, smoother-looking skin.

Promotes Healthy-Looking Skin
Supports a smoother, more even-looking tone and texture.

Supports A Clearer Complexion
Multi-wavelength light therapy helps improve the appearance of blemishes and promotes calmer-looking skin.

Energizes Your Skin's Cellular Health
Helps support cellular energy and natural renewal for more vibrant, radiant-looking skin.
